## **SHILOH LINE RECONSTRUCTION TO START JULY 26, 2017**

The Township of Enniskillen will begin the reconstruction of Shiloh Line from Mandaumin Road to Fairweather Road during the week of July 24<sup>th</sup> 2017. Presently the contractor Karl Robinson Drainage has provided a start date of July 26 2017 subject to weather conditions.

The section of road under construction will remain closed during construction accept for local traffic.

This work will consist of the grinding of the existing asphalt surface, the digging up and removal of the clay road base, the placement of gravel for a new base and the packing of the gravel road base. The road will remain a gravel surface until the summer of 2018 when it is planned that surface treatment will be placed on the road.

The reconstruction of the road is planned to take 3-4 weeks. There will be increased truck traffic during construction to remove clay soil from the site and to place gravel on the road.

Persons who have an interest in receiving clay soil from the construction should contact the Road Superintendent.

Should any questions exist in regards to the construction project please contact:
